I have an idea for a dystopian movie:

The background begins in 2020: a virus that mimics the flu sweeps across the globe. Some believe it's a man made bioweapon to provide cover for global economic collapse from an unsustainable debt load & rising wealth inequality. The majority

Believe their governments and dutifully obey orders to shelter in place while supply chains dissolve, they lose jobs or small businesses and eventually the middle class is wiped out. Inexplicably large big box businesses are allowed to operate and folks are allowed to shop there
